Active English Training Package

Active English is a whole-school support package for the teaching of grammar, writing and punctuation. It is largely aimed at years 1 to 4, but the elements can be used flexibly across all year groups to meet the needs of pupils. What is important, is that there is a whole-school approach, with all teachers and teaching assistants being supported to implement the programme consistently across the school. It uses the principles of mnemonics to embed learning in an active and engaging way, providing pupils with a deeper grasp of language that serves as a foundation for their future.

The package includes

- > training from the course facilitator of either two two-hour twilights, or as a full day INSET, held at your school;
- > an Active English Teacher Handbook including baseline assessment sheets for each attendee at the training;
- > one to one support from our expert practitioner to your nominated Active English Lead;
- > a follow up school visit from our expert practitioner to support implementation;
- > access to demo lessons and follow up support through IRIS Connect videos;
- > the option for your Active English lead to visit Witham St Hughs Academy to observe the teaching of Active English;
- > the option to purchase class resources (please see resource pricing list for further details).
